Application to enrol in a Queensland state school

This sheet contains information on how to complete the Application for student enrolment form (SEF-1 Version 8).

Entitlement to enrolment

Under the *Education (General Provisions) Act 2006 (Qld)* a state school must enrol a prospective student if they are entitled to enrolment. While not exhaustive, the following matters may affect a prospective student's entitlement to enrol in a state school:

- if the school has a School Enrolment Management Plan or an Enrolment Eligibility Plan (enrolment is subject to eligibility under the plan)
- the applicant is a prospective mature age student (the applicant can only apply for enrolment at a mature age state school and will be subject to a satisfactory criminal history check, or as a student in a program of distance education. All prospective mature age students must have a remaining allocation of state education.)
- the prospective student is not of correct age for enrolment (relates to Preparatory Year and Years 1 to 6)
- the prospective student has been excluded, or is subject to suspension from a state school at the time of the application
- the school principal reasonably believes that the prospective student presents an unacceptable risk to the safety or wellbeing of members of the school community (application is referred to the Director-General)
- the school is a state special school and the prospective student does not meet the criteria for enrolment in a special school
- the proposed enrolment requires approval as part of a flexible arrangement under s.183 of the *Education (General Provisions) Act 2006 (Qld)*, and the arrangement has not yet been approved
- the prospective student is not an Australian resident or citizen or the child of an Australian permanent resident or citizen (visa restrictions may apply, fees may be charged, in some cases legislation requires that the prospective student must obtain approval from the Chief Executive via Education Queensland International (EQI) to enrol)
- the school does not offer the year level that the prospective student should be enrolled in
- the prospective student has no remaining semester allocation of state education. Enrolment cannot proceed until additional semesters are applied for by the prospective student (or parent on their behalf) and granted.

Prospective student

A prospective student is a person who has applied to enrol at a state school but who has not yet been accepted for enrolment.

Parent's occupation and education

All parents across Australia, no matter which school their child attends, are asked to provide information about family background (answering this question is optional). The main purpose of collecting this information is to promote an education system which is fair for all Australian students regardless of their background.

Court Orders

Any court orders concerning the prospective student's welfare, safety or parenting arrangements should be provided to the school, and the school should also be provided with any new or updated orders.

Name on enrolment form

A prospective student should be enrolled under their legal name as per their birth certificate. There is provision to also record a preferred family and/or given name. The preferred name will be used on internal school documents such as class rolls. The legal name will appear on semester reports unless there is a specific request to use the preferred name only. This request can come from parents/carers or the student (if the student is independent/mature age).

Gender

Information about gender is supplied to the Federal Government to comply with State funding agreements. The gender category with which a person identifies may not match the sex they were assigned at birth. There is no requirement for a student's gender recorded on this form to align with the sex shown on their birth certificate or passport.

Religious Instruction

Religious instruction is a program approved and provided by a religious denomination or religious society. Other instruction relates to part of a subject area that has been covered within the curriculum and may include, but is not limited to, personal research and/or assignments, revision of class work, and wider reading. Information about religious instruction available at the school, and about other instruction, is provided by the school at the time of enrolment and on the school's website.

Purpose of the consent

It is the school's usual practice to take photographs or record images of students and occasionally to publish limited personal information and student materials for the purpose of celebrating student achievement and promoting the school and more broadly celebrating Queensland education.

To achieve this, the school may use newsletters, its website, traditional media, social media or other new media as listed in the 'Media Sources' section below.

The State School Consent Form may, at your discretion, provide consent for personal information and a license for the student materials to be published online or in other public forums. It also allows your child's personal information and student materials to be presented in part or alongside other students' achievements. The school needs to receive consent in writing before it uses or discloses your child's personal information or student materials in a public forum. The attached form is a record of the consent provided.

It should be noted that in some instances the school may be required by the *Education (General Provisions) Act 2006* (Qld) or by law to record, use or disclose the student's personal information or materials without consent (e.g., assessment of student materials does not require further consent).

Voluntary

There will not be any negative repercussions for not completing the State School Consent Form or for giving limited consent. All students will continue to receive their education regardless of whether consent is given or not.

Consent may be limited or withdrawn

Consent may be limited or withdrawn at any time by you.

If you wish to limit or withdraw consent, please notify the school in writing (by email or letter). The school will confirm the receipt of your request via email if you provide an email address.

If in doubt, the school may treat a notice to limit consent as a comprehensive withdrawal of consent until the limit is clarified to the school's satisfaction.

Due to the nature of the internet and social media (which distributes and copies information), it may not be possible for all copies of information (including images of student materials) once published by consent, to be deleted or restricted from use.

The school may take down content that is under its direct control, however, published information and materials cannot be deleted and the school is under no obligation to communicate changes to consent with other entities/ third parties.

Privacy Notice

The Department of Education (DoE) is collecting your personal information on this form in order to obtain consent for the use and disclosure of the student's personal information. The information will be used and disclosed by authorised school employees for the purposes outlined on the form. Student personal information collected on this form may also be used or disclosed to third parties where authorised or required by law. This information will be stored securely. School Network Access and Usage

ICT-PR-004: Using the Department's Corporate ICT Network (Department of Education & Training) provides direction on accessing and using the Department's ICT network, including, intranet, extranet, internet and network access and usage for students and staff and the publication of personal information to departmental websites.

Statement of intent:

- This policy and its associated guidelines and documents, set the framework for the requirements for safe and secure access and usage of the departmental ICT network by students, school and departmental staff. In addition, the policy provides guidance for the publishing of information via the intranet, extranet or internet and the connection of private devices to the departmental network.
- All school and departmental staff must adhere to this policy when operating the departmental ICT network. It is a requirement under Information Standard 38: Use of ICT Facilities and Devices that all
- ICT facilities and device users are aware of the Government and school's network access and usage policies prior to accessing and using departmental ICT facilities and devices.
- Additionally, all school and departmental staff must ensure that access and usage of the departmental network is able to withstand public scrutiny and/or disclosure, as outlined in the State Government's position Statement - Use of Internet and Electronic Mail Policy and Principles Statement 2005.

An essential tool for schools in the provision of innovative educational programs is the use of intranet, extranet, internet and network services and facilities. School Principals and teachers have the main responsibility for ensuring this policy, its associated guidelines and documents are understood, adhered to and are administered within the school community. However, staff and students using school ICT facilities also have a responsibility for good behaviour and adhering to the school's network access and usage requirements. Responsibility for conveying and ensuring students understand and follow these behaviour standards when using the school's network facilities also rests with their parents and guardians.

The Department of Education & Training encourages schools to explore new and innovative ways to incorporate safe and secure information and communication technologies into the curriculum and the operating school environment. School's network facilities are to be used for educational purposes only, unless otherwise arranged.

Schools reserve the right to restrict staff or student access to network services if access and usage requirements are not met or are breached. However, restricting or removing access to the network should not be undertaken where it will disrupt the provision of an educational program to a student. Alternatively, to ensure the continuation of the delivery of an educational program for a student whose network access has been restricted, the school could provide access to a stand-alone workstation.

Private Device Access:

All users of the departmental network should be aware that the Department reserves the right to restrict access (e.g. on-site, dial-in, etc.) of privately owned ICT devices (e.g. USB, mobile phones, laptop, PDAs, etc.) where that device is or has been used on departmental premises (e.g. school, District Office, Central Office) and/or is connected to the Department's Wide Area Network (WAN), and a security breach has been detected or the device is suspected to have compromised/could compromise the integrity of the network.

Wholly privately (e.g., non-departmental devices) owned ICT devices that do not meet network security and operational requirements should have restricted access (e.g., internet, printing) to maintain the network's integrity. The Department of Education, Training and the Arts advises schools to ensure students do not connect solely privately owned devices to its corporate ICT network. This type of mass access of uncontrolled private devices would greatly compromise the integrity of the network.

Understanding:

The Internet can provide students with valuable learning experiences. It gives access to information on computers around the world, the school cannot control what is on those computers; and that a very small part of that information can be illegal, dangerous or offensive. While teachers will always exercise their duty of care, protection against exposure to harmful information should depend finally upon responsible use by students. Breaking of the school rules will be subject to appropriate action by the school. This may include loss of Internet access for some time.
